Abdulmalik S. Alsufayran

📞 966548226392 | ✉ sufayran@gmail.com | 📍 Riyadh, Saudi Arabia

Professional Experience

Senior Software Engineer | Zain-KSA
2021 – Present

- **Leadership & Project Management:** Successfully contributed to major digital transformation initiatives, such as the [eSIM Platform](https://esim.sa.zain.com), delivering high-quality systems on schedule.
- **Technical Oversight:** Directed frontend development (Alpine.js, Tailwind CSS) and backend (Laravel, Livewire), converting Figma UX designs into functional prototypes.
- Cross-functional Collaboration: Worked with stakeholders, UX teams, and third-party providers (e.g., National Login Nafath SAML) to ensure seamless integration and alignment with business goals.
- **Strategic Systems Design:**
  - Led the development of Zain B2B App, a responsive platform supporting website and mobile apps for iOS and Android. Built using the Ionic Framework and Vue.js, it streamlined operations for business clients.
  - Collaborated closely with designers to ensure seamless user experiences and adherence to UI/UX standards.
- Business Intelligence: Designed management dashboards for upper management, enabling data-driven decision-making and automating email reports.
- **DevOps Expertise:** Managed Linux-based servers, containerized deployments (Docker), and Kubernetes orchestration.
- **Team Collaboration & Mentorship:** Worked closely with a colleague, practicing leadership skills by providing guidance on best practices, conducting code reviews, and ensuring adherence to project standards.

Fullstack Developer | National Housing Company (NHC)
2020 – 2021

- Developed backend APIs using Drupal PHP, enabling seamless mobile application integration.
- Maintained media portals, ensuring high availability and performance.
- Acted as a liaison between technical and business teams, translating requirements into actionable technical solutions.

Fullstack Developer | Alrajhi Investments
2018 – 2020

- Designed and implemented a Meeting Room Management System using Laravel, optimizing resource allocation.
- Led the development of a tailored ERP for the legal department, streamlining case management.
- Maintained and enhanced legacy systems to ensure business continuity and scalability.

Education

Bachelor of Information Technology
Saudi Electronic University | 2017 – 2022

Technical Skills

- **Programming Languages & Frameworks:** Laravel, Livewire, Alpine.js, Vue.js, Java Spring Boot, Ionic Framework.
- **DevOps & Infrastructure:** Linux, Docker, Kubernetes.
- **Database Management:** MySQL schema design and optimization.
- **Project Management:** Agile methodologies, stakeholder communication, and team mentoring.
- **Integration Expertise:** National IAM (Nafath), advanced fintech security protocols.

Professional Development

- **AI and Prompt Engineering:** Self-trained in the latest trends of AI, including **prompt engineering**, building AI-powered applications, and integrating open-source AI tools like **Ollama** for real-world use cases.
- **Continuous Learning:** Actively pursuing **Udemy courses** and other resources to stay up-to-date on advancements in AI, ensuring alignment with cutting-edge industry practices.
- **Practical Applications:** Leveraged AI skills to explore innovative solutions, enhancing workflows, automating processes, and improving decision-making in professional and personal projects.
